Suggestions for Activities

Preschool Education aims to support the overall development of all children. At 4 and 5 years of age, children develop in all 5 global areas at the same time: physical and motor, emotional, social, language and cognitive.

The intention is to offer suggestions for ideas, actions and activities to be carried out that allow children to:

- Move (big and small movements);
- Dance, etc.
- Express what they're feeling; what they can do, etc.
- Participate, cooperate, etc.
- Talk, listen, sing, invent, etc.
- Think, ask questions, look for answers, etc.

With regards to the activities:

The most important thing is to set up a routine that corresponds to your family's situation. A simple routine that is adapted to your child's age and needs is reassuring and can help prevent tantrums and maintain a pleasant atmosphere at home. The morning routine (breakfast, brushing teeth, etc.), lunch, nap, dinner and the bedtime routine (bath, brushing teeth, story, etc.) are stable reference points that help children to situate themselves in time, encourage them to collaborate and help them to control their emotions and feel at ease.

PLAY is a child's main learning strategy. A child who plays is a child who learns.

Outdoors

Information for parents

Suggestions for activities

You can:

- Have fun jumping like a frog;
- Taking giant steps and mouse steps;
- Walking on the curb to work on your balance;
- Drawing a hopscotch game;
